HOW BALANCED BILLING WORKS

Balanced Billing takes the guesswork out of budgeting and levels out your monthly energy expenses so you don't have to be concerned about extremes in the weather impacting your bill. You pay an even monthly amount through the year, and reduce fluctuations brought on by changes in the weather and price of energy.

- Available to residential and commercial customers who meet the program criteria. You may join anytime during the year.
- To request enrollment, log in to your account online at www.gpng.com. You can also email us at customerservice@gpng.com or call our customer service number listed below.
- Balanced Billing payments must be made each month. Missing payments may result in removal from Balanced Billing, at which time the full balance will become due.
