

# ENERGY ASSESSMENT

*Minnesota residential natural gas customers*

**Great Plains Natural Gas residential customers in Minnesota may apply to have an energy assessment performed on their home for a cost of \$50.**

A home energy assessment gives you a thorough picture of where your home is losing energy and how you can save money.

## HOW THE PROGRAM WORKS:

- Fill out the application and send it to Great Plains.
- Great Plains will notify you if you are approved for an energy assessment.
- A third-party contractor will contact you to schedule the audit.
- Once the audit is complete, Great Plains will bill you \$50 for the assessment. Typically a home energy assessment can cost up to \$500.

The number of residential energy assessments available to natural gas customers is limited, and assessments are approved in the order in which they are received.

## Energy Assessment Request Agreement

I wish to have an energy assessment performed on my home. I understand that Great Plains Natural Gas Co. (Great Plains), through its Energy Conservation Optimization (ECO) Program, has a limited number of assessments available. The assessment will be performed by a state certified auditor contracted by Great Plains.

Upon receipt of the application it will be determined if there are assessments available and you will be notified whether or not an assessment will be performed on your home. If you are selected to have an assessment performed, the contractor will contact you to schedule the assessment. Assessments are awarded on a first come first served basis. Signing below gives Great Plains permission to provide one year of natural gas usage information to the contractor\*.

☐ I would like an Energy Assessment performed on my home, and I understand that I will be billed \$50 for the Energy Assessment once completed. Missed appointments with the auditor may result in an additional \$50 charge for each occurrence.
